

ONE WORLD,

ONE MEDICINE,

ONE HEALTH

One Health Intellectual Exchange

A monthly discussion series, sponsored by the
North Carolina One Health Collaborative

to enhance collaborations between physicians, veterinarians, public and environmental health workers (including plants and wildlife) and other local/global health professionals by increasing public awareness of the interconnectedness of people, animals and the environment.

(The public One Health IEG series goes to weekly in Jan and is available for credit if desired)

Final 2011
